Who knew solving oxidation would be such a gas.

For more than 50 years, GHS has been an innovator in string design. Our strings have long been preferred for playability, superior tone and extremely high break points. And now we've created Nitro-Pack, a revolutionary protective package that seals each string in nitrogen, not oxygen. So your strings will be free of corrosion, tarnish and rust—as fresh as the day we made them. Guaranteed.* If you ever open one and find corrosion, we'll replace it for free.* Which makes the whole idea a real gas. Who knew it would be?

*Within two years from printed date of manufacture on the Nitro-Pack label.
